

TERMS AND CONDITIONS FOR SUBSCRIPTIONS TO MedDRA TERMINOLOGY

1. This is a one year subscription to MedDRA, continuing for twelve calendar months following the enrollment date. The MedDRA subscription is available for use by the subscribing organization and any wholly-owned subsidiaries of the subscribing organization. All prices shall remain unchanged during the initial subscription period. After the initial subscription period, this subscription will renew from year to year at the then current applicable subscription fee (to be furnished to Subscriber at least thirty (30) days prior to the expiration date) unless Subscriber discontinues the subscription by notifying Northrop Grumman in writing thirty days prior to the expiration date. Should Northrop Grumman discontinue its role as MSSO for any reason, then this agreement shall be deemed assigned to the International Federation of Pharmaceutical Manufacturers and Associations (IFPMA) or its designee.

2. Northrop Grumman grants Subscriber a non-exclusive license during the term of this agreement to possess and use MedDRA Terminology for its sole use. Subscriber may not grant any sublicense nor publish nor otherwise distribute MedDRA Terminology to a third party. Upon cancellation of the MedDRA agreement, the license for using any versions of the MedDRA terminology is no longer authorized for use.

3. Payment shall be due upon receipt by Subscriber of invoice from Northrop Grumman. Northrop Grumman reserves the right to suspend or terminate this subscription if any amounts due remain unpaid for greater than thirty days from the date of invoice and to charge a fee of \$75.00 to reinstate a suspended or terminated subscription.

4. Northrop Grumman is serving solely as a distributor of the database for the initial subscription version of MedDRA terminology as it existed on March 1, 1999, and is in no way responsible for the accuracy of the data contained in or the placement of terms in such initial subscription version. Northrop Grumman is, however, responsible for the accuracy of the data contained in, or the placement of, updated terms in the terminology subsequent to the initial subscription version as it existed on March 1, 1999. Northrop Grumman agrees to indemnify and hold harmless Subscriber from any third party Intellectual Property claims related to this agreement.

5. Notwithstanding any other provision of this agreement, in no event shall either Northrop Grumman or Subscriber be liable for any loss of profits, business opportunity, or business advantage, loss of use, interruption of business, loss of good will, data loss, computer failure or malfunction, work stoppage, any indirect, incidental, special, exemplary, punitive, or consequential damages, even if the party has been

advised of the possibility of such claims or demands. This applies to all claims without regard to which other provisions of this agreement have been breached or proven ineffective.

6. Notwithstanding any other provision of this agreement, the cumulative liability of Northrop Grumman and IFPMA regardless of the form of action for all claims related to this agreement, including but not limited to any cause of action sounding in contract, tort, or strict liability, shall not exceed the total amount of fees paid by Subscriber to Northrop Grumman under this agreement.

7. Northrop Grumman shall not be liable for delays in performance of its obligations, and the date on which Northrop Grumman's obligations are to be fulfilled shall be extended for a period of time caused by the delay, when the delay was due to causes beyond Northrop Grumman's reasonable control, which causes shall include but not be limited to the following:

acts of God, floods, earthquakes, unusually severe weather, fire, explosions, nuclear accidents, acts of terrorism, the taking of hostages, hijacking, epidemics, quarantines, restrictions, freight embargoes, unforeseeable circumstances, acts (including delay or failure to act) of any governmental authority (De Jure or De Facto), wars (declared or undeclared), riot or insurrections, revolution, fires, strikes, labor stoppages or disputes, sabotage, and revisions to import/export regulations associated with the countries in which the parties hereto do business.

8. Ownership of the medium containing MedDRA and its related documentation will pass to the Subscriber f.o.b. destination. Subscriber shall be responsible for custom clearance and act as the importer of record.

9. This agreement shall be governed by the laws of the Commonwealth of Virginia, United States of America.

Main Subscription Point of Contact:

The main subscription point of contact receives subscription sensitive information (e.g., User ID, Passwords, Change Request ID, and Unzip Passwords). They are responsible for distributing MedDRA information to members of their organization, including those in alternate locations.

Subscription sensitive information will not be given to any members of your organization through the MSSO help desk; those inquiries will be directed to the main point of contact. Please notify the MSSO help desk with any changes in contact information.

The main point of contact is copied in on all correspondence sent to any other designated point of contact. In lieu of a designated billing point of contact, the main point of contact will receive invoices and accounts receivable correspondence.

Billing Point of Contact:

The billing point of contact is an optional point of contact for renewal invoices or accounts receivable /collections issues. Because renewal invoices are sent electronically, an email address is required for the designated billing point of contact.

Alternate Subscription Point of Contact:

The alternate subscription point of contact is an optional point of contact that receives all correspondence from the MSSO for informational purposes, and serves as the main POC in the event that the main POC is unavailable.
